## Dress

Dress for all teams is casual. We encourage your team to adopt a fun and unique team identity, which allows others to understand something about your team, your engineering experience, or your Innovation Project. Remember to **HAVE FUN!**

## Team Size

A competitive team consists of a minimum of two (2) and a maximum of ten (10) children. Team members must be between 9-14 yrs of age (as allowed by FIRST).

## Team Check-in - Team check-in will run from 7:45 AM – 8:15 AM.

### EXPRESS CHECK-IN:

- Teams who have **submitted both their \$35 tournament fee AND their team roster** by Wednesday, Jan. 22<sup>nd</sup> at noon, may proceed Express Check-In Table in the pits (see Jesuit map at the end of this packet). A list of eligible teams will be sent via email several days ahead of the tournament and will also be posted on the entrance doors. All other teams must proceed to the Regular Check-In Table (also shown on map).

### REGULAR CHECK-IN:

Coaches must submit the following for their teams to the team check-in volunteers:

- \$35 Tournament Fee:** Volunteers will verify if the funds have been received; otherwise, payment must be made.
- Team Roster:** If you have not submitted your roster ahead of time, you must download it from the Team Registration System, print a copy, and bring it to the team check-in. Your roster must show that all team members have a signed Consent and Release Form. A *FIRST* Consent form is required for every team member and coach who will be with the team during the competition day. It is not required for spectators or chaperones. If you are having issues with registering your team members online, please contact Annette Oertling ([aoertling@firstpartners.org](mailto:aoertling@firstpartners.org) or [annette@tulane.edu](mailto:annette@tulane.edu)).

### Your team will receive the following at Team Registration:

- Wristbands:** One wristband will be provided for each team member and two coaches. Your team will only receive two coach wristbands, even if your team works with more than two coaches and mentors. Your team will need to decide which two adults will be spending the day with the students. **NOTE: At least one adult coach is required to supervise the team at all times during the tournament. Coaches may also pick up spectator wristbands at check in. Alternatively, spectators may pick up their own wristbands in the pits or at the gym entrance but must show ID to do so (for security purposes).**
- Schedule of Events:** Your team will be provided information about the tournament day, including judging and match schedules (also included at the end of this packet).

### SECURITY:

- There will be 4 security guards present for the event,
- every participant and spectator must have a wristband (issued at event) to gain access,
- there is an overhead crosswalk to go between the school building and a building adjacent to the gym, so students do not have to cross Banks Street at ground level.** To access the crosswalk, there are 2 steps. If anyone needs handicap access to get to the gym from the school building, they can exit the doors on the corner of Carrollton and Banks. To get back into the school building, let someone with a radio know to open those same school doors which are locked from the outside for security.
- only vehicles with an Access Pass may enter the schoolyard. Teams may use the Team Access Pass (sent via email) to drop students off in the schoolyard after 8am (see parking details p.2)

## Pit Area

The Pit is where your team will spend much of their time. This is where you will work on your robot and programming. This is also the area where you can enjoy downtime with your team, get to know other teams, see their robots, and find out about their Innovations Projects. Your team will have access to:

- One standard-sized table with at least 4 chairs
- Electricity – There will be 4 charging stations located on the perimeter of the pit area.

We recommend that you bring the following for your team to have in the Pit Area:

- A bin or large bags (like trash bags) to store personal belongings, like coats, under your table
- Your robot and all your robot supplies (attachments and additional building pieces)
- Your laptop computer and power cord
- An extension cord and power strip (optional, as there will be charging stations)
- A box or small bin to carry your robot and attachments to and from the competition area. During matches, you must unload all your equipment onto the competition table.
- Games (there will be long periods of downtime – bring some small games that the team can play when things are slow)

Some Pit Area Rules for you to keep in mind:

- Coaches should refrain from handling the robot, attachments, or the computer. ***NOTE: If your team encounters technical difficulty, let someone at the tournament know so that the officials at the event understand why a coach might need to handle a robot or work on the computer. Violations of this rule may be reported to the Tournament Planning Committee and the Judges.***
- If you choose to bring your own field set for practice, they **may NOT be placed in the pits** as there is no room. You may use the hallways, as long as you do not block access for walking (fire code). There will be room in the courtyard outside of the pits to set up your field set, but you are responsible for it.

## PRACTICE TABLES ARE IN THE GYM (not in the pit area)

- Remember to be gracious professionals when using a Practice Table:
  - Teams are allowed sign up for only one 10-min time slot at a time. An additional time slot may be reserved once you complete your practice time.
  - **Bring a USB connector for your robot, as Bluetooth is NOT ALLOWED in the gym.**
  - Be mindful of your time and other teams' needs. Please be courteous and allow a team facing a crisis to use your practice time).
  - Reset the Practice Table for the next team.
  - Make sure you check that you do not take a mission model from the Practice Table
  - Offer help to teams that may need it!

## Coaches' Meeting

The Coaches' Meeting will be held **on Thursday, Jan. 23<sup>rd</sup> at 5pm on Zoom**. The meeting will be recorded for those that cannot attend, and a link will be sent out immediately after. Please join us to hear important information from the Judge Advisor and Head Referee, understand the flow pattern through the competition area, and take this opportunity to ask questions you may have. At least one team coach should attend this meeting.

## Robot Game

Your team is responsible for knowing and understanding the *FIRST* LEGO League Challenge Robot Game. All the game documents can be found on the [FIRST LEGO League website](#). You are required to know the following for the robot competition: Field Setup, Rules, Missions, and Robot Game Updates.

Your team will participate three (3) times at the Tournament. Your Robot Performance score is the highest score your team achieves out of the three official rounds. When competing, please keep in mind that:

- The competition area is surrounded with caution tape with one entrance and one exit, clearly identified with traffic cones and an ENTER and EXIT sign. PLEASE OBEY THESE SIGNS.
- You MUST check in with the queueing team by the field ENTRANCE before each match, ideally at least 10 minutes before.
- When checking in, please know your team number, as that is how the matches are listed.
- Only 4 drivers may be at the competition table at a time. Team members may stand in the competition area in designated areas and may switch out during the match.

**Coaches:** Two coaches will be permitted to join the team on the competition floor, but you must stay behind the line with the team and refrain from actively directing the team during the game. Coaches must not touch or handle the robot or attachments during this time. Consider yourselves spectators with the best spot in the house to watch the game. And keep in mind that the Gracious Professionalism score that referees must give depends on the gracious professionalism of the team and the coaches.

**NOTE: Remote controls are not allowed in the competition area – the gym (This includes Smartphone applications that enable you to control your robot remotely). Bluetooth may not be used in the gym, including at the Practice Tables. Your team could be disqualified if you are found remotely controlling your robot anywhere during the competition or if your Bluetooth is enabled in the competition area!**

Make sure you are ready to compete at least ten (10) minutes prior to your scheduled robot round. Remember to respect the referees and the other teams – and **HAVE FUN!**

## Judging

Team judging begins at 8:45 AM. Each team will be judged within a single judging session. Your team will spend ten (30) minutes with your assigned judging pod. Only team members and two (2) coaches will be allowed into the judging rooms. One team coach will be permitted to videotape the judging session; however, that adult should stay toward the back of the room. Nobody from the team should stand behind the judges. Coaches should be silent observers of the judging process and refrain from influencing the session in any way. Digital support for your judging presentation is allowed and audio-visual equipment is available. **To use the AV equipment, you must BRING YOUR OWN LAPTOP**, which can be connected using the Jesuit HDMI cable at the podium. If you have a MAC, you also must bring an HDMI adaptor for a MAC to connect. The judging schedule is tight. You must be on time for your judging session.

**All cell phones (team members & coaches) must be turned off during the judging sessions.**

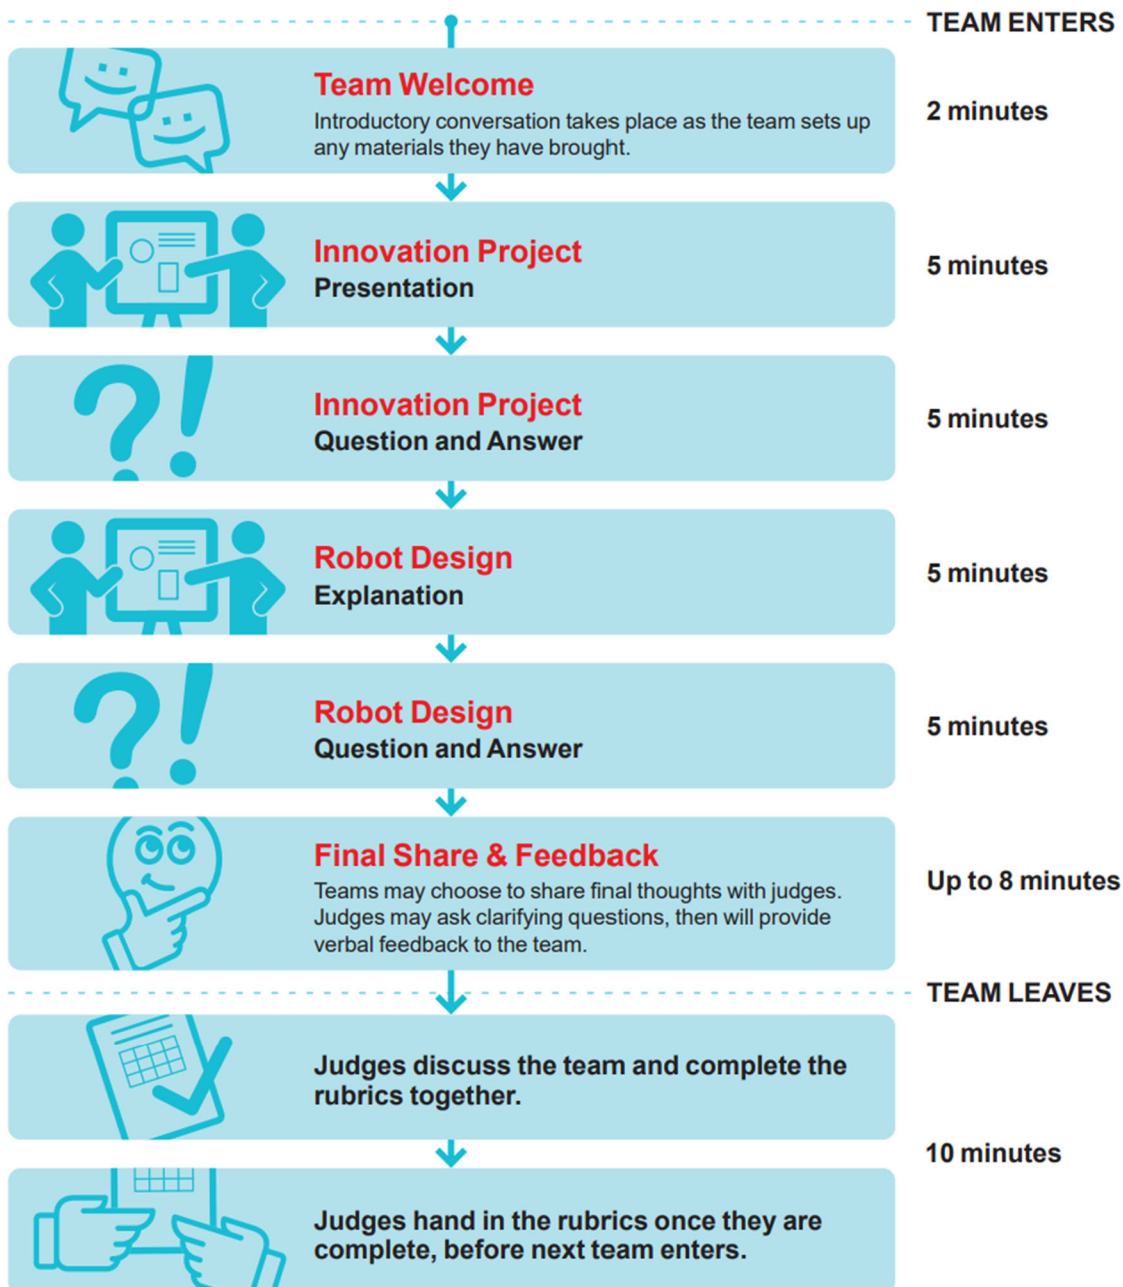

Please make sure to review [the rubrics](#) with your team prior to coming to the event. The following outlines what you can expect in each of the judging session:

## Judging Session Flowchart

Teams should demonstrate **FIRST® Core Values** in everything they do. Judges will be excited to see how teams used **teamwork**, **discovery**, **inclusion**, **innovation**, **impact**, and **fun** throughout their Innovation Project and Robot Design work.

Judging is a time to celebrate a team's accomplishments, but it is normal to feel nervous. Judges will do their best to encourage teams during the session. Teams should not leave anything in the judging room when they leave.

## Spectators

The Robot Game is free and open to spectators with a wrist band, starting at 9:00am. The judging portion of the event, which will happen all morning, is closed to spectators. Thank you for respecting this policy. Please remember to respect the team-only areas – the competition floor area (the area where teams queue and compete) and the judging area. ALL SPECTATORS ARE REQUIRED TO HAVE WRISTBANDS. These spectator wrist bands may be picked up by the coach at team check in, or by spectators later in the day by showing an ID (required for security purposes).

## What is *Gracious Professionalism*®?

*Gracious Professionalism*® is part of the ethos of *FIRST*®. The idea and phrase are found throughout *FIRST*, but no one has been a stronger champion than *FIRST* Executive Advisory Board Co-Chair & Distinguished Advisor, Dr. Woodie Flowers. “*Gracious Professionalism* is a way of doing things that encourages high-quality work, emphasizes the value of others, and respects individuals and the community. With *Gracious Professionalism*, fierce competition and mutual gain are not separate notions. Gracious Professionals learn and compete like crazy but treat one another with respect and kindness in the process.”

We expect all team members, volunteers, coaches, and families to behave as Gracious Professionals.
